

# La MOLE 1

Quantité de matière

$$n = 1 \text{ mol}$$

"Une mole d'**entités** est un "paquet" contenant  $6,02 \times 10^{23}$  **entités**"

mol →

$$n = \frac{N}{N_A}$$

→ sans unité

$N$

$N_A$

$\text{mol}^{-1}$

$$n = \frac{N}{N_A}$$
